Column Definitions

WaterBody: Water body from which the fish were sampled.

TribTo: Water body into which "WaterBody" column flows.

Date: Collected Date sample was collected in the field

Date Analyzed: Date sample analyzed in the lab

Analysis Type Type of genetics analysis conducted

No Fish in Sample Number of fish contributing to the sample. Tissues from all fish were combined prior to analysis.

Species Composition Species of fish detected in the sample.

Percent: Percent of genetic material from species indicated in "SpeciesComposition" column. A "-10" in the field indicates that a percentage could not be derived.

Count Number: of genetically pure and/or hybridized fish if no percent given
