

## Appendix 45

### American Wildlands GIS-based Coarse-scale analysis

This appendix presents the results of an American Wildlands GIS-based, coarse-scale analysis of the current condition of native aquatic integrity across an Upper Columbia basin (called the Aquatic Integrity Areas (AIA) model). For more information and complete reports on this modeling exercise, go also to: [www.y2y.net/science/aquatic\\_research.asp](http://www.y2y.net/science/aquatic_research.asp)

**Legend**

**Designation**

- National Park
- Wilderness
- Inventoried Roadless

**AIA Ranks**

- Rank 5
- Rank 4
- Rank 3
- Rank 2
- Rank 1
